

## I. T Scope Profile

### Organizational Overview

---

The owners of the company are specialized in I.T sector. The company was started after a deep research which was done by the Company's owners of IT Scope about the LT field in Oman. Moreover, to cover the gap between professional and reasonable worthy service price. Giving opportunity to the Omanis to join 100% Omani I.T Company is another advantage I.T Scope providing. The company is doing four basic I.T jobs, Networking, Server Hardware, Web-Design and Programming.

I.T Scope is KOM located, I.T Scope already doing business in all I.T scope, we already reached to an agreement with Gulf College to create and maintain them a new website. Sur-club is also was developed by I.T Scope and we are doing the support for the website and provide servers for them. An agreement with AL-AQARIA was reached not only to provide networking and hardware maintenance but also to take over all the I.T responsibility such as programming, web designing, and much more. Every day I.T Scope has new project to go through, and therefore we could not mention all our projects.

## **I.T SCOPE Company**

---

IT SCOPE Company was created to star play its affective rules in I.T Field, it was created by three ambitions young multiple IT specialists, in which each one of the company's creator support the company with specific characteristics, not only support the project but to develop it. Through the name of the company, IT SCOPE, the scope of the company is all the information technology fields whither they are management or technical. Due to both of the multiple fields in IT scope, and the dramatically IT changeable development, this fact is highly motivating IT SCOPE Company to take a strong part in all IT fields. The targeted market will not be classified, the entire governmental, commercial or to the social, depend on the technical needs for each layer.
